

OPEN ACCESS

Persona

Simran Gupta

Professor of Medicine in Gastroenterology

“As a physician, I can get the best available evidence more easily and make a more direct impact on the health of my patients. As faculty, open access removes socioeconomic barriers to research publications and data for my students, enabling their academic growth.”

One way they support Open Access:

- Make use of open access repositories

One way they benefit from Open Access:

- Gives scholarship and data a wider reach to a broader community of researchers
